

# Merlin Spill Protection

## Worksite liner designed to contain liquids.

Ultra tough liner designed to keep liquids contained and the environment protected.

Available in a variety of sizes to suit different size tanks and applications.

Easily transported, installed and can be packed up and reused at multiple sites.

**100% RECYCLABLE**

## Specifications

- **Polypropylene composite** consists of three barrier films sandwiched by double layers of needle punched geotextile with heat fused surfaces
- **2x more tear resistance and 4x more puncture resistance** than standard 30-mil HDPE liners
- **High-traction surface** minimizes slip and fall injuries, even when covered by hydrocarbon spills
- **Absorbs and contains nuisance leaks**, drips and spills on contact; embedded barrier film helps prevent major spills from reaching the ground
- **Tough seams** won't pull apart when driven over by trucks or even track hoes
- **Weldable and sealable** for easy installation and patching
- **100% recyclable or incinerable** to reduce waste

### PIG®

<b>Composition</b>	Polypropylene
<b>Fluids Absorbed</b>	Oils, coolants, solvents, corrosives, acids and water
<b>Recycled Content</b>	5% Preconsumer recycled textiles
<b>Absorbency</b>	Up to 0.90 oz./sq. ft.
<b>Roll Dimensions</b>	MAT6000 – 18"W
<b>UV Resistant</b>	Yes
<b>Static Decay</b>	Meets NFPA 99 standards
<b>Resistance/ Resistivity</b>	Meets NFPA 99 standards

Custom sizes and options available.

**Folds down for easy transportation or storage.**
